ANSWER SHEET

Conversation

1. A) To express her wish to him for his early recovery.
B) To ask for leave of absence from his lecture.
C) To make up for what she missed from his last lecture.
D) To see if she was allowed to turn in the paper later.
2. A) To imply some students give lame excuses.
B) To suggest that dogs bring unexpected troubles.
C) To mean that dogs might go crazy.
D) To remind that papers should be taken good care of.
3. A) Her roommate forgot about the term paper.
B) Her roommate's mother got cancer.
C) Her roommate caught the flu and missed a test.
D) Her roommate's car broke down and she missed biology lab.
4. A) He is understanding.
B) He is strict.
C) He is unsympathetic.
D) He is indifferent.
5. A) To make a reasonable schedule.
B) To cut down on party time.
C) To make the best use of gap time.

6. A) 61.
B) 100.
C) 161.
D) 39.
7. A) They lost their guns in attempt to escape.
B) They were put to sleep with drugs.
C) Three of them escaped.
D) Three of them were killed
8. A) In the capital of Pakistan.
B) In a police training center.
C) In a Pakistan public school.
D) In a US police station.
9. A) It has been struck twice by terrorists.
B) It has been the site of numerous terrorist attacks.
C) Attacks of this nature have never occurred.
D) It is heavily guarded by US troops.
10. A) Over 140 people were killed, most of them children.
B) Six policemen were killed in powerful explosions.
C) Rockets were launched into a training centre grounds.
D) Over 72 people were killed by a terrorist group.

ANSWER SHEET

Nearly one fourth of the world's population, some 1.8 billion people, are between the ages of 10 and 24, according to the United Nations 2014 State of World Population Report. (11) _____, young people are often overlooked, shut out of the decision making process, and (12) _____ overlooked,

health and family planning services,” notes the report. And this in turn feeds the (15) _____ cycle of poverty.

The report points out that nine out of ten young people live in less developed countries, where schooling and jobs are scarce. Many lack access to reproductive health information and services. U.S. Assistant Secretary for Population, (16) _____ and Migration Anne Richard, who spoke on the release of the report, emphasized that these are services young people need to preserve their options, (17) _____ and even save their own lives.

Too many girls, about 39,000 every day, are subjected to early and forced marriage. Some of these child brides are as young as eight. As Assistant Secretary Richard pointed out, the (18) _____ of early marriage and young people’s unmet need for contraceptives can be grave. (19) _____

_____. And while HIV fatalities for other age groups are falling, among adolescents, they are rising.”

If you want your team to soar, there is no better example of teamwork than the United States Navy’s world-renowned flight demonstration team—the Blue Angels. In many ways, they are the “ultimate team” because for them, failure is not a(n) (31). That’s why (32) is such an important book. Written by one of the pilots for the Blue Angels, Scott Beare, along with author Michael McMillan, it

Passage One

Some people in the British Victorian era hated mustaches. They thought an unshaven upper lip was crude and ungentlemanly. For example, a British businessman left 10 pounds to each of his employees without a mustache. Managers of the Bank of London seemed to be a little more tolerant. They prohibited mustaches only during working hours.

Are you laughing yet? After all, our society doesn't pay attention to such silly details of how we look. Or does it? Spend 15 minutes watching customers shop at any department store. You'd think they were making decisions that compare with choosing a career!

Consider that importance of athletic shoes. In 1984 Michael Jordan wore a pair of black and red high-tops in a pre-season basketball game because the NBA said he'd be fined if he wore his "Air Jordans" during a regular-season game. The maker of the shoes

D) a sales pitch used on TV commercials

43. The fashion industry follows teenagers closely because _____.

- A) the ads for fashion are their favorite topic
- B) teenagers are a large consumer-group of fashions
- C) marketing the latest fads needs the opinions of teenagers
- D) their thoughts and hobbies are attractive to the fashion industry

44. By “**the lure of fashion could never be a Christian’s problem**” (Para. 5), the author implies that _____.

- A) Christians never worry about what to wear
- B) Christians need to get away from the mass media
- C) a real Christian should not desire to follow fashion
- D) the influence of fashion ads cannot reach Christians

45. Which o

subtle ways. Those characters, like Mrs. Blake, who oppose the institution are portrayed in a sympathetic light. Furthermore, the suffering of the slaves themselves and the petty, nasty, often cruel, behavior of the slave-owners are painted in stark terms.

46. The author refers to Willa Cather's _____ primarily as a(n)

- A) heroic tale of the pre-Civil War
- B) story based on personal material
- C) authentic description of slavery
- D) veiled opposition of the institution

47. According to the author, Mandy Ringer and Dr. Clevenger are included in the book in order to _____.

- A) show that some characters play active roles in the story-telling
- B) display Cather's mixed feelings about slaves and slave-owners
- C) paint a full portrait of life in rural Virginia before the Civil War
- D) stress that characters in the novel are portrayed in a positive light

48. Willa Cather's attitude toward slavery is concluded as "somewhat ambiguous" in that she _____.

- A) did not denounce slavery directly but criticized it in more roundabout ways
- B) was against slavery but refrained from getting involved in the political issues
- C) disliked the treatment of slaves yet never tried to help improve their way of life
- D) was ignorant of the legal and political part of slavery while being opposed to it

ANSWER SHEET.

Bed Confessions

BED. It's something shared by men and women in more ways than one. BED, or Binge Eating Disorder, has become an emotional and health concern for men across the United States. This eating disorder, which affects more than 1 million men in America, has only recently been recognized by the American Psychiatric Association as a disorder of its own, that needs further study.

Ninety-five percent of the U.S. population has cravings for "pleasure" or "comfort" foods. The other five percent crave alcohol, cigarettes, or some other addictive substance. Having cravings, and fulfilling them, is a natural human instinct.

(49) _____

A typical binge may include eating anywhere from 1000 to 15000 calories at a time. In fact, it is not uncommon to actually have a "food hangover" the day following an especially large binge. The foods consumed are usually high in fat and are eaten in

a relatively short period of time, putting an enormous amount of stress on the digestive and endocrine (内分泌的) systems. BED is different from the two other characteristic eating disorders, anorexia and bulimia. Anorexia is a condition of slow, self starvation; bulimia is a bingeing and vomiting syndrome.

(50) _____

BED is a unique eating disorder, especially when it comes to men. While only 5% to 10% of people with anorexia and bulimia nervosa are male, it is estimated that BED affects a much greater proportion of men. According to Dr. Anne Becker of the Harvard Eating Disorders Center, "The ratio of females to males with this disorder is about 1.5 to 1.0 or about 40% men." Dr. Becker adds, "Binge eating disorder has become more recognizable by doctors as more attention is given to weight control in the clinical setting."

(51) _____

(52) _____

Unlike bulimia, where people eat and then purge, there is no counteraction to bingeing. Therefore, weight gain is a likely effect. As noted above, men with BED are often overweight to begin with. The effects of BED on health include all the possible consequences of overweight or obesity—diabetes, hypertension, and heart disease.

(53) _____

(54) _____

Treatment with medications such as antidepressants may be helpful for some individuals. Self-help groups also may be a source of support. Researchers are still trying to determine which method or combination of methods is the most effective in controlling binge eating disorder. The type of treatment that is best for an individual is a matter for discussion between the patient and his or her health care provider. Some organizations do provide professional and confidential treatment and information, such as the National Eating Disorders Organization, Overeaters Anonymous, and Males and Eating Disorders, etc..

A There are some common characteristics of men who have BED. Most are overweight, with a history of depression, low assertiveness, and poor self-esteem. Similar to all people with eating disorders, men with BED view themselves in a negative light and allow food to control their lives in order to compensate for their lack of control in other areas such as work or family matters.

B Bed is formally characterized by the American Psychiatric Association in the _____ according to the

following five criteria:

- 1) Recurring _____

- eating until you feel uncomfortably full
- eating large amounts of food when you don't physically feel hungry
- eating alone because of embarrassment at how much you are eating
- feeling disgusted with yourself, depressed, or very guilty after overeating

3) Binge eating causes emotional and physical stress or remorse.

4) The binge eating occurs, on average, at least two days a week for six months or more.

5) The binge eating is not followed by other inappropriate behaviors such as purging, fasting, excessive exercises and does not occur exclusively during episodes of other eating disorders, such as anorexia nervosa (神经性厌食症) or bulimia nervosa (神经性贪食症).

C An ever more serious consequence is death. According to Dr. Ken Stephenson, a psychotherapist who specializes in treating males with eating disorders, "People with eating disorders have the highest mortality rate of all psychiatric patients." Isn't that a good enough reason to seek help now?

D Another common characteristic of men with BED is that they fail to address their own personal needs, and instead, turn to food. For these men, food can be a great sedative (镇静剂) and a means of suppressing feelings of anger, guilt, despondency, and sadness. Men with eating disorders tend to eat in private, not wanting to alert others to their habit. This increases the feelings of isolation and sadness, and creates another vicious cycle.

E Men with symptoms of BED need to seek treatment as soon as possible. The longer a person waits, the greater the risk to their health. Treatment of the disorder generally includes cognitive-behavioral or interpersonal therapy performed by a licensed clinician. Cognitive-behavioral therapy teaches patients techniques to monitor and change their eating habits as well as to change the way they respond to difficult situations. Interpersonal psychotherapy helps people examine their relationships with friends and family and make changes in problem areas.

F But BED is more than an occasional craving for a sweet snack. At first, eating may satisfy cravings. But eventually the eating becomes more and more frequent, and higher in calories and fat. This overeating leads to feelings of self-disgust and guilt, which may cause a person to eat even more.

ANSWER SHEET

M.I.T. Game-Changer: Free Online Education For All

For decriers (责难的人) of the "social injustice" of college tuition, here's a curveball bound to scramble your worldview: a totally free college education regardless of your academic performance or background. The Massachusetts Institute of Technology (M.I.T.) will announce on Monday that they intend to launch an online

learning initiative called M.I.T.x, which will offer the online teaching of M.I.T. courses free of charge to anyone in the world. Some of the features they describe on their website page are:

- *organize and present course material to enable students to learn at their own pace*
- *feature interactivity, online laboratories and student-to-student communication*
- *operate on an open-source software infrastructure in order to make it continuously improving and readily available to other educational institutions.*

The program will not allow students to earn an M.I.T. degree. Instead, those who are able to exhibit a mastery of the subjects taught on the platform will receive an official certificate of completion. The certificate will obviously not carry the weight of a traditional M.I.T. diploma, but it will provide an incentive to finish the online material. According to the New York Times, in order to prevent confusion, the certificate will be a credential bearing the distinct name of a new not-for-profit body that will be created within M.I.T.

The new online platform will look to build upon the decade-long success of the university's original free online platform, OpenCourseWare (OCW), which has been used by over 100 million students and contains course material for roughly 2,100 classes. The new M.I.T.x online program will not compete with OCW in the number of courses that it offers. However, the program will offer students a greater interactive experience.

Students using the program will be able to communicate with their peers through student-to-student discussions, allowing them an opportunity to ask questions or simply brainstorm with others, while also being able to access online laboratories and self-assessments. In the future, students and faculty will be able to control which classes will be available on the system based on their interests, creating a personalized education setting.

M.I.T.x represents the next logical evolution in the mushrooming business of free online education by giving students an interactive experience as opposed to a simple videotaped lecture. Academic Earth (picked by Time Magazine as one of the 50 best websites of 2009) has cornered the market on free online education by making a smorgasbord (瑞典式自助餐; 大杂烩) of online course content – from prestigious universities such as Stanford and Princeton – accessible and free to anyone in the world. Users on Academic Earth can watch lectures from some of the brightest minds our universities have to offer from the comfort of their own computer screen. However, that is all they can do: watch. Khan Academy, another notable online education site, offers a largely free interactive experience to its users through assessments and exercises, but it limits itself to K-12 education. By contrast, M.I.T.x will combine the interactivity of the Khan Academy with the collegiate (大学的) focus of Academic Earth, while drawing primarily from M.I.T.'s advanced course material.

“M.I.T. has long believed that anyone in the world with the motivation and ability to engage M.I.T. coursework should have the opportunity to attain the best M.I.T.-based

educational experience that Internet technology enables,” said M.I.T. President Susan Hockfield in the university’s press release.

According to the university, residential M.I.T. students can expect to use M.I.T.x in a different way than online-only students. For instance, the program will be used to augment on-campus course work by expanding upon what students learn in class (faculty and students will determine how to incorporate the program into their courses). The university intends to run the two programs simultaneously with no reduction in OCW offerings.

According to the New York Times, access to the software will be free. However, there will most likely be an “affordable” charge, not yet determined, for a credential. The program will also save individuals from the rigors of the cutthroat M.I.T. admissions process, as online-only students will not have to be enrolled in the prestigious, yet expensive, university to access its online teaching resources.

Those who want to dive into M.I.T.x will have to wait, as the university doesn’t plan to launch a prototype of the platform until the spring of 2012. According to M.I.T. Provost (教务长) L. Rafael Reif and Anant Agarwal, director of the Computer Science and Artificial Intelligence Lab, the prototype might include only one course, but it would quickly expand to include many more courses.

Once launched, M.I.T. officials expect the M.I.T.x platform to be a giant hit amongst other universities looking to create or expand upon their online course materials. “Creating an open learning infrastructure will enable other communities of developers to contribute to it, thereby making it self-sustaining,” said Agarwal in the M.I.T. press release.

Whether M.I.T.x will directly threaten the margins at for-profit online universities, such as the University of Phoenix, APUS, or DeVry remains to be seen. But as M.I.T.x starts to provide many of the salient virtues of for-profit online colleges, such as a robust learning management systems and real-time virtual interaction, these publicly traded education companies might have to lower fees in order to compete with M.I.T.x’s compelling free price. In addition, the success of M.I.T.x, OCW, and Academic Earth may push dramatic technological innovation at for-profits, so that they can maintain a unique selling proposition versus their free competitors. Moreover, as the rapidly growing number of what are termed “self educators” choose free college education, a cottage industry of social media support services might evolve to bring them together for free in-person study and help sessions.

Which is all to say that, against this country’s sizable need for STEM (Science, Technology, Engineering, and Math) graduates, M.I.T.x is nothing short of revolutionary. This is especially true if you aren’t a credential freak (怪人) and, like me, just want to improve your chops in a marketable subject area. Heck, maybe Gene Marks’ (“If I Were a Black Kid”) tech-based view of education can become a reality after all.

49. According to the passage, a college education free of charge to anyone in the world

- will be available at M.I.T through _____.
50. The new program seems superior to the original OCW in that _____.
51. Considering their own interests, students work together with faculty to decide what class to learn, which can _____.
52. Khan Academy and Academic Earth are both famous online education sites with different features, the former offering users interactive experience while the latter _____.
53. For on-campus students, the use of M.I.T.x will be expected to help _____.
54. To gain access to M.I.T's online teaching resources, the online-only students will neither be charged nor _____.
55. According to its plan, as early as of the spring of 2012, M.I.T might _____.
56. Competing with M.I.T.x, for-profit colleges and universities will be forced to _____.
57. The author believes that M.I.T.x is revolutionary and especially welcomed by people like him who _____.
